

Crude Glycerin Product Datasheet

Item number: 40-054

General Information

Usage:

In accordance with EC294/2013, product should be used in the following applications:

- Biogas
- Technical purpose
- Distillation in waste water treatment etc.

The product is not applicable for feed.

Analysis conducted in the internal laboratory.

Delivery form:

ISO tanks

Catalyst:

Potassium hydroxide (KOH)

Typical Specification

Parameter	Minimum	Maximum	Average
Organic Matter (%)	50		55
Water (%)		45	39 - 43
Ashes (%)		6	3 - 5
Methanol (%)		2	1
PH (%)	6.0	7.5	6.0 – 6.5
Sulphates (%)		6	5
