## FAMET 30-85 Nonionic Surfactant Product Datasheet

Item number: 60-127

## General Information / applications

FAMET 30-85 Nonionic Surfactant is an $85 \%$ aqueous solution of fatty amine ethoxylate containing 30 moles of ethylene oxide.

FAMET 30-85 Nonionic Surfactant can be used in a range of applications such as emulsifiers, dispersants, antistatic agents for textiles and polymers, dye leveling agents for textiles.

## Specification of FAMET 30-85 Nonionic Surfactant

| Analysis | Unit | Value |
| :--- | :--- | :--- |
| Cloud point | ${ }^{\circ} \mathrm{C}$ | $87.5+/-3$ |
| $(1 \% \mathrm{w} / \mathrm{w}$ of surfactant in 10 \% of sodium chloride solution) |  |  |
| Water content | $\%$ | $15.0+/-1.5$ |
| $\mathrm{pH}(1 \%$ aqueous solution $)$ |  | $9.5+/-1.5$ |

## Typical analyses of FAMET 30-85 Nonionic Surfactant

| Analysis | Unit | Value <br> clear to hazy liquid |
| :--- | :--- | :--- |
| Appearance @25 ${ }^{\circ} \mathrm{C}$ |  | red-brown |
| Colour | $\mathrm{g} / \mathrm{cm}^{3}$ | 1.07 |
| Density @ $20^{\circ} \mathrm{C}$ |  | 1200 |
| Viscosity @ $20^{\circ} \mathrm{C}$ (mPas) | $\mathrm{mg} \mathrm{KOH} / \mathrm{g}$ | 35 |
| Amine value (before water addition) |  | 16.7 |

## Handling \& storage

Store the product in sealed containers. Prolonged exposure to the atmosphere and / or elevated temperatures might cause the colour to deteriorate, although this is not expected to affect other aspects of quality. At lower temperatures $\left(<30^{\circ} \mathrm{C}\right)$ physical separation is possible, particulary after prolonged periods, and in this case it is recommended to homogenize the product before use.

FAMET 30-85 Nonionic Surfactant is a registered trademark of UCY ENERGY GROUP. Technical data sheets are updated frequently. Please ensure that you have a current copy.
